NOTES TO GOLFERS

- While this program is correct at the time of printing, the Match Committee ask that you please check the golf noticeboards regularly for the latest program.
- Please see the golf noticeboards for up-to-date lists of office bearers, committee members, conditions of play (including policies), reciprocal clubs, and all other related information.
- In case of inclement weather, a member of the Match Committee and the Club Professional will make a decision about the suitability of the course for play as early as possible. Please phone the Pro Shop on 02 6646 1656 for more information.
- Complaints or grievances should be directed to the Golf Manager or a member of the Match Committee preferably in writing for consideration at the next match committee meeting.
- Standards of dress are displayed at the entrance to the pro shop, with golfers expected to dress respectfully at all times.
- In times of wet weather please limit cart use and stay on cart paths at all times. When the 'wet weather rule' is implemented, relating to cart usage, no more than two carts per group are permitted at the discretion of the starter. At all other times a maximum of three carts per group are permitted.
- In the interests of all golfers slow play should be avoided, with each group expected to keep up with the group ahead.
- The Monday to Sunday nine-hole competition runs all year around – play as many times as you like. Check with the pro shop for details.

Call to book our courtesy bus – available from 4pm weekdays and 2pm weekends

WORLD HANDICAP SYSTEM

in association with

Handicapping Changes The handicapping experience for Australian golfers under the WHS will be largely the same as it is now. However there are four changes that many golfers and administrators will see.

These are:

- **NEW REGULATION - Bonus Reduction for Exceptional Net Score.** GOLF Link will apply an automated extra reduction to a player's GA Handicap for any net score that is at least 7 strokes better than it.
- **NEW REGULATION - Soft Cap.** In addition to the existing Hard Cap of 5 strokes, a Soft Cap is being introduced. The Soft Cap will take effect once a player's GA Handicap increases to 3 strokes above its best point for the previous 12 months. Once in the Soft Cap zone, a player's GA Handicap will only be allowed to increase by 50% of the calculated amount.
- **CHANGED REGULATION - Adjustment made to Daily Handicap if Scratch Rating is different to Par.** This will make 36 Stableford points (or net par) the universal measure of a golfer playing to their handicap. As a result, it will become simple to conduct mixed-gender or multi-tee competitions. Examples of the adjustment: If Scratch Rating 73 & Par 70; 3 is added to the Daily Handicap calculation (ie $73 - 70 = +3$). If Scratch Rating 68 & Par 70; 2 is subtracted from the Daily Handicap calculation (ie $68 - 70 = -2$).
- **CHANGED REGULATION - Transfer of 0.93 Multiplier.** The 0.93 Multiplier will be transferred out of the GA Handicap calculation and into the Daily Handicap calculation. Note: Our statisticians confirm this change will have no overall impact on the handicaps players actually play off (ie Daily Handicaps). This is because the slight

increase it will cause to GA Handicaps (by being removed from the GA Handicap formula), will be exactly the same as the decrease it will cause to Daily Handicaps (by being transferred into the Daily Handicap formula). As a result there will be no overall impact
